**FRAMES**

Kodak, was founded in **1888**. It was really succesful thanks to the **introduction of the film** in the market, replacing the glass plates

His motto at that time describes his value proposal quite well:

**“You press  
the button,  
we do the rest”**

*George Eastman*

# Concept

- Photography for everybody
- Democracy in photography
- Simplify the art
- Remember the past

*'Family In Convertible Somewhere in Texas' Campaign from 1968*

*Robert Capa*

*Marilyn Monroe*

*Quentin Tarantino*

The best **photographers, artists** and **filmmakers** have used Kodak films and Kodak cameras.

**Kodak** is a part of history of the last century. Remember one moment of your life, **Kodak was there.**

*'Thanksgiving dinner, children breaking wishbone' Campaign from 1968*

Nowadays **Kodak** is betting in new areas to adapt to a **digital and technological world**.

*Kodachrome magazine, Forever 21 colab, Girl Skateboards colab., new Super 8*

# Mini collections

There is a collection for everyone!

## Folding spring hinge

Kodak has built many folding cameras in all their career. We have used this technique to create a new spring hinge inspired in the folding camera. This folding spring hinge is more resistant than most of the spring hinges of the market and also more flexible for a better use.

## Tip hole

Round shapes are always involved in cameras as viewfinders, lenses, buttons...We wanted to use this recognized shape in the tips of the frames simulating a camera lens.

## 180° hinge

There is no better sensation than open the back case of the camera and see that the film is over. It's time to develop and see all our photographs! We saw that this movement could work to make unbreakable temples that can open 180°.

## Black and gold materials

The mixed materials in the cameras, is what made them sophisticated and beautiful on the outside. To transmit these sensations in our glasses we have developed a titanium and double layer of metal frame in black and matt gold to get the sensation of the focus rings rolling.

## Textures and colors

This is a premium camera that came out of a single material plate, making each unit maintain the same color but with different textures. We do the same with our acetate plates from where many of our frames come from, so we make each of them unique.

## Rounded shapes

As we know all the cameras have in common their rounded shapes of buttons, lenses and designs. In Kodak stereo camera, the symmetry is the axis of its beauty. We have developed some rounded frames to empower that symmetry in all the outfits.

## Tripod system

We have developed a mechanism based on the tripods of cameras that allows a rotation of both rods of 360 degrees. Greater comfort, greater adaptability, greater freedom of movement: because your life rotates 360 degrees...

## Easy opening

We have played with the same system of 180° but with metal TR90 frames , a really light material that become the most comfortable and secure frame.

# CLIP ON

How can we make that users see life in full color? That is what we did, with the inspiration of color filters of the cameras, we have developed different color layers that sticks to the main frame thanks to a strong magnet. You will have three glasses in one with the CLIP ON frames!

## Laminations

Thick color stripes are getting recurrent in the digital Kodak cameras. We took that characteristic to create the laminations in the tips. You will find a big range of combined colors in each frame.

## Camera lens temple

The lens is one of the most important part of the camera. The lens directs the light rays towards the sensor. We wanted to do an homage of the most popular KODAK lens transforming part of the temple into a camera lens.

*'Saturday night bath' Campaign from 1964*

## Main assets

- Wide range of products, models, concepts and prices
- Kodak cameras as inspiration
- Technical – light concepts
- Easy/Commercial products. Fast sell out

Starting in the early 1950s, photographer **Philippe Halsman** asked famous people to be photographed jumping for him.

From Marilyn Monroe, Grace Kelly and Brigitte Bardot, to Richard Nixon and Salvador Dali, Halsman **photographed an impressive number of illustrious sitters jumping.**

When we look at somebody's face we don't know what they think or feel but at the moment of the jump, everybody becomes free again.

***"Jumping humanity can be divided into two categories: one which tries to jump as high as possible and one which doesn't care"***

***- Philippe Halsman***
