His motto at that time describes his value proposal quite well:

**“You press

George Eastman

Starting in the early 1950s, photographer **Philippe Halsman** asked famous people to be photographed jumping for him.

From Marilyn Monroe, Grace Kelly and Brigitte Bardot, to Richard Nixon and Salvador Dali, Halsman **photographed an impressive number of illustrious sitters jumping.**

When we look at somebody's face we don't know what they think or feel but at the moment of the jump, everybody becomes free again.

"Jumping humanity can be divided into two categories: one which tries to jump as high as possible and one which doesn't care"

- Philippe Halsman

Folding spring hinge

Kodak has built many folding cameras in all their career. We have used this technique to create a new spring hinge inspired in the folding camera. This folding spring hinge is more resistant than most of the spring hinges of the market and also more flexible for a better use.

Black and gold materials

The mixed materials in the cameras, is what made them sophisticated and beautiful on the outside. To transmit these sensations in our glasses we have developed a titanium and double layer of metal frame in black and matt gold to get the sensation of the focus rings rolling.
