A SMILE CAPTURES THE WORLD

Since 1974, the toy system PLAYMOBIL® created by Hans Beck has become a classic of children's playrooms, with its many different play worlds – from a pirate ship to a children's hospital.

About 3,5 billion of the beloved play figures with the characteristic smile have been produced since then and delight children all over the world. Around 40 different play themes are distributed in approx. 100 countries worldwide. Both parents and educators appreciate the award-winning toy system as a representative of high-value, quality play.

Playmobil has been one of the most famous international toy brands for more than 40 years. Its figures, in the form of 7.5 cm high dolls, were baptized with the name CLICK and are characterized by their large number of moving parts and a multitude of accessories: vehicles, buildings, plants, animals, etc.. This set allows to create a great variety of scenarios and possibilities in which children can develop their imagination in an infinite way.

For the first time Playmobil and an optical company have joined forces to create a collection of children's frames from 0 to 14 years of age.

The eyeglasses, for both girls and boys, are designed with lightweight, removable, rubber frames to maximize comfort and safety in the child's daily use. Each frame is customized with unique elements that faithfully represent the spirit of the brand and its excellent quality. The color combinations are faithful to their dolls and all this has made Playmobil one of the favorite brands of children generation after generation.

Horst Brandstätter (1933 – 2015)

Children called him “Mr. Playmobil,” but to his employees, he was simply “Hob.”

Horst Brandstätter, the great-grandson of company founder Andreas Brandstätter, was the sole owner of the company for three decades and a prominent figure in Germany’s toy industry. In 1950, he recognized plastic as the future of toy manufacturing and reorganized the family business.

In the early 1970s, he asked Hans Beck, head of design, to develop a new toy system: PLAYMOBIL® was born. With PLAYMOBIL®, the company became a top seller in Germany. In 2000, he successfully launched the LECHUZA brand as the company’s second pillar.

Horst Brandstätter passed away on June 3, 2015, at the age of 81. The company continues to operate as a corporate foundation.

THE FATHERS

Hans Beck (1929 – 2009)

In 1958, Hans Beck applied as a model designer for the company geobra Brandstätter and was chosen by its owner, Horst Brandstätter.

From the start, Beck designed innovative products that boosted the company's success, with his masterpiece being PLAYMOBIL®, created in the early 1970s.

As Head of the Development Department, he was the “Corporate Conscience,” reviewing every new product to ensure it fit the play concept and prioritizing consumer satisfaction. After his retirement in 1998, the company honors his legacy through its figures. Since 2014, Uwe Reuter has led the R&D team, continuing his work.

HISTORY

1867

Andreas Brandstätter founds the company bearing his name in Fürth in Bavaria for the production of ornamental casket fittings and locks.

The late sole owner, Horst Brandstätter, joins the company. Mainly telephones, piggy banks, cash registers and scales for toy shops – all made of sheet metal, later of plastic, are produced. Over the years, the company expands with several toys and leisure products, e.g. the famous hula hoop, water ski and pedal tractors.

1952

1908

His son Georg takes over from him, changing the name into geobra, an acronym made up from his name, **Georg Brandstätter**.

The oil crisis and the cost pressure from low-cost countries **start to affect** the company. Horst Brandstätter realises that this is the right moment for a completely new play idea.

1958

1921

The company moves to **Zirndorf**, the next-door village, where the company's headquarters are still located today. The company manufactures and distributes toys and other products made of metal.

The oil crisis and the pressure on costs made Horst Brandstätter consider it the perfect time to develop and complete Hans Beck's new idea. It was Mr. Beck who developed the design of our **"clicks"**.

1970

1974

PLAYMOBIL® is introduced. At the request of his boss, Hans Beck had been busy developing a new play system since 1971. Beck's new idea focuses on the 7.5 cm **PLAYMOBIL®** figure.

1976

The Malta subsidiary takes over production of the **PLAYMOBIL®** figures, which are made up of seven components and are assembled by hand. Today most of these are machine-made and **PLAYMOBIL® Malta** has an annual capacity of 100 million figures.

1980

In the 1980s, to meet the rising global demand, **PLAYMOBIL®** sets up sales companies in France, the Benelux countries (Belgium, Netherlands, Luxembourg), England, Italy, Canada and the USA.

Move to the new DM 50 million headquarters for Development, Marketing and Sales in Zirndorf. Exhibition space and play areas are opened up right next door – the start of the **PLAYMOBIL-FunPark**.

1990

2000

Geobra Brandstätter introduces a new segment with its **LECHUZA** brand. Owner Horst Brandstätter finds a successor to lead the company, Andrea Schauer, but he remains an executive partner and continues to play an entrepreneurial role.

2004

PLAYMOBIL® celebrates its **30th anniversary**. It has established itself as a classic in the toy world.

2010

PLAYMOBIL®'s global sales exceed the "half-billion mark" for the first time, with a turnover of **507 million euros**. geobra Brandstätter is Germany's largest toy manufacturer, with a market share of 8%.

2012

Throughout the past decades Horst Brandstätter has continuously invested in new production facilities. In 2012 a new high-rack warehouse and a new injection moulding plant come into operation at the Dietenhofen location at a cost of 25 million euros.

2013

With investments of 100 million euros in 2013, company owner Horst Brandstätter paves the way for his company to remain the largest German toy manufacturer. In May, the groundbreaking for a **new PLAYMOBIL logistics center** in Herrieden takes place.

PLAYMOBIL® figures celebrate their **40th** anniversary.

2014

2015

The company's sole owner, **Horst Brandstätter, passes away on 3rd June at the age of 81 years**. His company continues as a corporate foundation.

2016

More than 3 billion figures have found their way into children's rooms worldwide, and more than 5,700 different figures have been created since 1974.

CONCEPTUAL VALUES

COLOR

Commercial styles.

HIGH QUALITY

Small and wider gauges to cover different ages.

TECHNICAL

Double injection with rubber on the inside of the front and rods.

LIGHTWEIGHT

Screwless hinges, flexible and easy to replace, if necessary.

FUN

Adaptable terminals for a perfect fit.

Fun with Playmobil characters.

CONCEPTS

"PLAYFLEX" ultraflexible

TR90 + Rubber tip

180° Flex

"LONG RUBBER TIP" with acetate front

Rubber TEMPLE with acetate front

Elastic band

Fun, colorfull, exible and comfortable, THIS IS THE PLAYMOBIL COLLECTION

27 models (132 sku's)

Materials:

High density TR 90 injection.
"Play Rubber" injection (ultraflexible special material).
Acetate.
TR 90 Clip On injection.
Double injection rubber.

Target:

Girls and boys from 0 to 14 years old.

Technical details designed to make its use more comfortable.

“PLAYFLEX”

PLAY RUBBER material: the brand’s exclusive, ultra-flexible, high-strength material that guarantees the child’s protection and reduces breakage rates to a minimum.

TR90 + RUBBER TIP

Inspired by the curves of dolls' faces.
TR90 frame with double rubber injection on
bridge and temples.

MATERIALS & SPECS

- Frame: TR90 + rubber injection
- Hingeless temple
- Temple: TR90
- Rubber tip

180° FLEX

Playmobil has a unique arm movement.
This is reflected in the design of the rod with a 180° flex.
It is complemented by the Clip On.

MATERIALS & SPECS

TR90 + double rubber injection.
Clip-on complement with polarized
lens. 8 to 14 years old.
Boys and girls.

Two frames in one piece
(Clip On Concept)

RUBBER TEMPLE WITH ACETATE FRONT

Inspired by playmobil rubber accessories.
Double injection rubber rod.
Adaptable.

MATERIALS & SPECS

Resistant and adaptable goggles.

Rubber temple with sporty style.

Acetate front.

Textured.

Embossed logo.

From 12 to 18 years old.

Boys and girls.

NUEVA VARILLA DE GOMA

Inspirado en el brazo articulado de los Playmobil
Varilla de goma con frente de acetato
Estilo deportivo / retro

Inspired by the articulated arm of the Playmobil
Rubber temple with acetate front
Sport / retro design
